

Let's find out what RNPS has achieved during 2022

- We spread joy among sick children, as we conducted about 600 visits to hospitals.
- We raised hope among the elderly, as we conducted 231 visits to the elderly in care homes.
- We were part of the community work, where we participated in 15 public events.
- We spread happiness among children in marginalized areas, where we conducted two visits within the Circus Smile Programme.
- We provided psychological support to sick children before and after medical surgeries, as we conducted 19 visits within the Intensive Smile Programme.
- We spread happiness among people with disabilities, as we conducted 15 visits to rehabilitation centers.
- We spread awareness on the importance of humour in healthcare, as we provided 8 workshops on Humor in Healthcare (HIH).
- We developed the artistic capabilities of healthcare clowns, as we conducted 11 technical workshops to develop their artistic capabilities.
- We provided psychological support to healthcare clowns, through 4 psychological workshops.
- We participated in the activities and programmes of Red Noses International, where 6 clowns participated in the workshops of the International School of Humour and two missions within the Emergency Smile Programme in crisis areas.
- Networking with local and international partners, through conducting an event celebrating the importance of humour in healthcare.
- We sought to expand the crew of clowns, through holding auditions to select new clowns.
- We stood with the human rights of all groups through the celebration of global and local days and events.
